## About Me

Hey there, I'm Alan Chris Antony - a passionate Python developer who likes to make weird things with technology. I'm always on the lookout for innovative methods to develop rich experiences and applications that push the limits of what's possible. When I'm not busy coding, you can find me plotting my next great escape from university (just kidding, maybe!). I love python and web development, with a strong emphasis on "Progressive Enhancement". So if you're looking for a passionate developer with a creative edge, look no further!

## Other Interest

Playing music and · of course · listening to music are two of my favourite pastimes.

## Skills

**Python**

**Linux**

**JavaScript**

**Networking**

**C**

The skill scale is from 0 to 5 (Expert).

## Projects

**Netflix** — Python

**OTT Streaming Platform**  React, Django, MongoDB

- A streaming service that offers the trailers of a wide variety of award-winning TV shows, movies, anime, documentaries, and more.

- The application is built with :

  - React version 17.0.2
  - Django version 4.1.7
  - Pymongo version 3.12.0
  - The Movie Database (TMDB)

**Amazon** — Java Script

**Ecommerce Web Application**  React, Node.js, MongoDB

- The application offers a vast selection of products across various categories, providing a convenient and secure shopping experience.

- The application is built with :

  - React version 17.0.2
  - Node.js version 12.16.3
  - Mongoose version 6.1.8
  - Firebase version 8.4.3
  - Express version 4.17.2

**Shopping** — Java Script

**Ecommerce Shopping Cart**  Node.js, MongoDB

- A virtual ecommerce website that contains products and allows you to buy them.

- The application is built with :

  - Node.js version 12.16.3
  - MongoDB version 4.2.0
  - Express version 4.16.1
  - Bootstrap version 4.4.1

## Education

**May/2023 – Jun/2020**

**Bachelor of Arts in Economics**  Mahatma Gandhi University

I hold a Bachelor of Arts in Economics with coursework in macroeconomics, microeconomics, econometrics, money and financial economics, business economics, environmental economics, growth and development economics, public economics, and international economics. Additionally, I conducted a comprehensive project on the impact of digital banking, analyzing implementation challenges, benefits, and emerging trends.

**May/2020 – Apr/2019**

**CA Foundation**  The Institute of Chartered Accountants of India

I have successfully completed the CA Foundation program from ICAI. This certification has given me a solid foundation in accounting concepts, financial management, auditing, economics, and company legislation. Throughout the program, I gained a thorough knowledge of key accounting principles and rules.

**Mar/2019 – Jun/2017**

**Higher Secondary (Commerce)**  Kerala Department of Higher Secondary Education

I have completed my higher secondary education in commerce from SNV Sanskrit HSS. N.Paravur. The educational curriculum gave me a thorough knowledge of the core ideas and principles of trade throughout my scholastic path.
